Mailbox Address Plate and other mailbox issues

Many neighbors have asked where they can go to replace their mailbox, post, address plate and/or the entire mailbox system because they were not able to locate the exact copy of the approved design. To make this process easier for the neighbors, Address of Distinction will set up a website that enables you to order the exact duplicate of your current mailbox.

The Magnolia Mailbox system includes:

- Mailbox (*Gibraltar – Large*)
- Address Plate (*Charleston*)
 - With solid brass numbers
 - Anchor points do not match existing plate.*New mailbox recommend, not required*
- Post (*Magnolia System*)
- Mailbox Hanger (*Magnolia*)

Unfortunately, the currently approved address plates are not sold anywhere. Because the design standards (section K-1) stipulate that “All mailboxes and supporting posts will follow one common design”. The Board has voted to change the common design of the address plate to the Charleston (pictured below). This design was chosen because a significant number of neighbors had already chosen the plate along with the fact that it matches those of surrounding neighborhoods.

The website to order these parts is <http://mymailboxorder.com/wacmb>. The mailbox and address plate are also available from Amazon.

Please update your address plate to conform to the new standards by March 31, 2019

Please submit any questions to the board at board@westminsteratcrabapple.com or come find a board member.
